

CREATE AND CONFIGURE IBM CLOUD SERVICES

IBM Watson IOT Platform and Device

Team ID	PNT2022TMID06857
Project Name	IoT Based Safety Gadget for Child Safety Monitoring & Notification

The image shows two screenshots from the IBM Cloud console. The top screenshot displays the 'Internet of Things Platform-ip' page, which is active. It features a 'Let's get started with IBM Watson IoT Platform' section with a 'Launch' button. Below this, there's a 'Ready for the next level?' section titled 'IBM Watson IoT Platform Journey' with three plans: Lite, Non-Production, and Production. The Lite plan is selected, showing details like 'Free', '200 MB data-transfer limit', '500 application bindings limit', and '500 registered devices limit'. The bottom screenshot shows the 'Browse Devices' page in the IBM Watson IoT Platform. It includes a search bar, a table of devices, and a 'Device Simulator' toggle. The table lists two devices: one with ID 1234 and another with ID 1917124, both in a 'Disconnected' state. The bottom status bar indicates '0 Simulations running'.

Ready for the next level?

IBM Watson IoT Platform Journey

Lite

The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.

- Free
- 200 MB data-transfer limit
- 500 application bindings limit
- 500 registered devices limit

Non-Production

The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.

- Starts at \$500 per month
- Capacity limit based on device type
- Optional Analytics Service and Blockchain Service add-ons

Production

The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.

- Includes IBM Service & Support
- Pricing based on number of devices per device type
- Optional Analytics Service and Blockchain Service add-ons
